PROFESSIONAL SUMMARY

Java Backend Developer with 3 years of experience building reliable server-side applications and REST APIs. Hands-on experience with Spring Boot, MySQL, Docker and Git, with strong foundations in data structures, algorithms, SQL and Linux. Experienced in designing layered services, improving database queries, and developing maintainable backend systems for growing workloads.

TECHNICAL SKILLS

Java, Spring Boot, MySQL, REST API, Git, Docker, Data Structures, Algorithms, SQL, Linux

EDUCATION

B.Tech in Computer Science and Engineering

Vardhan Institute of Technology, Hyderabad | 2021 | CGPA: 8.6/10

INTERNSHIP / EXPERIENCE

Backend Developer Intern, TechNova Solutions | Jan 2021 – Jun 2021

Worked on Java and Spring Boot services for an internal order-management platform.

- Implemented REST API endpoints for order creation, updates and status tracking.
- Wrote SQL queries and assisted with MySQL schema and indexing improvements.
- Used Git for source control and Linux for application troubleshooting.

Java Backend Developer, BlueOrbit Systems | Jul 2021 – Present

Develops backend services for business applications used by multiple client teams.

- Built Spring Boot REST APIs and service-layer components using Java.
- Containerized applications with Docker and supported repeatable development deployments.
- Optimized SQL queries and backend workflows for improved response times.
- Applied data structures and algorithmic techniques to reduce processing overhead.

PROJECTS

OrderFlow API

Developed a Java Spring Boot backend for order management with customer, product and order modules. Added REST endpoints, MySQL persistence, validation and centralized exception handling.

Inventory Alert Service

Created a backend service that checks stock thresholds and exposes inventory information through REST APIs. Packaged the application with Docker and maintained the codebase using Git.

CERTIFICATIONS

- Oracle Academy: Java Foundations
- Spring Boot Backend Development — Fictional Skills Certification
- SQL for Application Developers — Fictional Skills Certification
