

Priya Reddy

priya.reddy.backend@example.com | +91 90000 12342 | Hyderabad, India

PROFESSIONAL SUMMARY

Java Backend Developer with about 1.5 years of experience developing web services with Java and Spring Boot. Comfortable with MySQL, REST API development, Git, SQL and common algorithmic problem solving. Interested in building clean backend components and learning scalable application architecture.

TECHNICAL SKILLS

Java, Spring Boot, MySQL, REST API, Git, Algorithms, SQL

EDUCATION

B.Tech in Information Technology

Deccan College of Engineering, Hyderabad | 2022 | CGPA: 8.1/10

INTERNSHIP / EXPERIENCE

Java Developer Intern, CodeHarbor Labs | Aug 2021 – Jan 2022

Assisted the backend team on a small customer-support application.

- Created basic REST API endpoints using Java and Spring Boot.
- Used MySQL to store customer and ticket information.
- Worked with Git branches and pull requests during feature development.

Junior Backend Developer, AppBridge Technologies | Feb 2022 – Present

Supports development and maintenance of Java-based business services.

- Implemented CRUD APIs and request validation in Spring Boot.
- Wrote SQL queries for reporting and application data retrieval.
- Practiced algorithms for data processing and participated in code reviews.

PROJECTS

Support Ticket API

Built a Spring Boot REST service for creating, updating and searching support tickets, with MySQL persistence and simple validation.

Employee Directory

Developed a Java backend prototype for employee records with REST endpoints and SQL-based data retrieval.
