PROFESSIONAL SUMMARY

Java Backend Developer with 3 years of experience designing and implementing REST-based services with Spring Boot. Strong background in Java, MySQL, SQL, Docker, Git, Linux, data structures and algorithms. Experienced in breaking applications into maintainable service layers, tuning database access, and preparing backend systems for higher request volumes.

TECHNICAL SKILLS

Java, Spring Boot, MySQL, REST, Git, Docker, Data Structures, Algorithms, SQL, Linux

EDUCATION

B.Tech in Computer Science and Engineering

Metro Institute of Engineering, Pune | 2021 | CGPA: 8.8/10

INTERNSHIP / EXPERIENCE

Software Engineering Intern, FinEdge Technologies | Feb 2021 – Jul 2021

Supported development of Java services for a financial operations portal.

- Implemented small Spring Boot modules and REST endpoints under senior guidance.
- Created MySQL queries for transaction and account data.
- Used Linux command-line tools and Git during development and testing.

Backend Software Engineer, CloudPeak Digital | Aug 2021 – Present

Builds Java backend services for workflow and document-processing applications.

- Designed REST services in Spring Boot using clear controller, service and repository layers.
- Built Docker-based development environments for backend applications.
- Improved SQL queries and database access patterns for frequently used operations.
- Applied data structures and algorithms to optimize validation and batch-processing logic.

PROJECTS

Document Processing Gateway

Developed a Spring Boot service that accepts document metadata, validates requests and routes processing jobs through REST endpoints. Used MySQL for job tracking and Docker for local deployment.

Clinic Appointment Platform

Built Java backend modules for appointment scheduling, availability checks and patient notifications. Implemented REST services, SQL persistence and Linux-based deployment scripts.

CERTIFICATIONS

- Java SE Programming — Fictional Skills Certification
- Spring Boot and REST Services — Fictional Skills Certification
- Docker Essentials — Fictional Skills Certification
